

Private Residence in Vila Nova de Milfontes (Part I)

Odemira, Portugal

For all the interior floors and stairs of this residence, we supplied our acknowledged **Blue Valley** limestone (brushed). In the kitchen the countertop and walls are in the same material but in a polished finishing.

The contemporary fireplace in the living room follows the same line (Blue Valley Limestone - honed finish) making a “dégradé” with the floor.

The exterior stairs and pavements - which give us access to a magnificent view - were supplied with the **Ataíja Blue** Portuguese Limestone, flamed finish.
