

Sovereign Court

London, United Kingdom

A great project that we are very proud of.

About 3.153sqm of polished cut to size marbles 2cm thick for the bathrooms of 107 Sovereign Court apartments in London.

The choice for most of the floors, walls, showers, bath surrounds and lavatories of these bathrooms was for the beautiful and luminous **Volakas** along with the **Dark Olive** marble; but among these two main materials there were others like **Crema Marfil** marble and **Emperador Dark** marble.

Elegant and contrasting choices that make this project a delight for those who have provided, built / made happen and clearly for those who will enjoy it.
