

# House at Herdade da Aroeira

Charneca da Caparica, Setúbal, Portugal

Built from the top at Herdade da Aroeira, Lisbon district, this house was supplied by us in two bathroom tops and in one extraordinary social bathroom. Take a look at the results.

The social bathroom is one of the most elegant division of the house. Whoever gets in never forgets the experience. With every wall in **Black & Gold**, a blackish marble fascinatingly veined with whites and gold, this bathroom was dully measured and drawn by us and supplied in cut-to-size measures: walls and vanity top.

For the other two bathrooms of the house we have contributed with vanity tops in marble tonalities similar to the existant ceramic tiles: one top in **Lioz St. Florient** limestone and one other in **Rosa Aurora Light** marble.
