

# Kitchen Countertops for Apartment in Monte Estoril

Estoril, Portugal

Located in the center of Monte Estoril, this project was characterized by basic economic decisions and a bet on beauty in kitchen countertops.

IKEA cabinets and tiles (already existing) allowed for a low budget. The big bet, which resulted, was in the worktops in **Oasis Green**, a marble with a great resistance: it is so hard that it must be cut with a granite disc.
