

Bathrooms and Kitchen, Restelo

Restelo, Lisbon, Portugal

In the bathrooms, the Portuguese marble **Ruivina** was chosen. With an unbeatable quality-price combination, this medium and dark grey marble was applied in the floors and walls of each bathroom and combined with big mirrors, modern accessories, chromed items, etc.. There was a special dedication to the tops, one with the lavatory made in the same marble, and the other with a hanging-appearance, like the toilet ceramics.

For the white-polished-cupboards-kitchen, the marble chosen was **Bianco Carrara** in the countertop and walls. Eternal, this marble can be used in classic decoration as well as modern stylish houses.
