

Head Offices of Morais Leitão, Galvão Teles, Soares da Silva & Associados

Lisbon, Portugal

Elegant, sober, refined.

Ruivina, the Portuguese marble was chosen for the polished finish due to its color that is easily combined with other materials such as wood and stainless steel.

On the floors the 100*50cm measuring pieces fill the eye and balance the spaces.

At the entrance, the long, narrow counters welcome those who enter the offices: an exemplary balance between the robust and the graceful, where the marble/wood relationship creates an elegant contrast of a single reality.
