

Washbasins for Home in Azeitão

Azeitão, Portugal

For the bathroom of this house in Azeitão, we supplied one lavatory in **Rosa Aurora Light** of first selection, polished finishing.

This “simple” piece of art is, in fact, the element that determines the class and beauty of the space. The wash-stand is made from 3cm thickness material but, through craftsman work, gluing techniques and delicate experience, has a massive appearance of an unique exquisite piece-of-art. Rich in manual work and executed in timeless noble marble, this washbasin has our signature and our quality stamp.
