

Wonderful Apartment in Bianco Carrara Marble

Lisbon, Portugal

Bianco Carrara was the chosen marble for this wonderful apartment located in Lisbon.

Living rooms, common areas, kitchen and bathroom, all paved in big pieces of Bianco Carrara, polished finishing and “CD” selection.

Only one variant: **Thassos White** for the vanity top.

The big challenge of this project was to unite the different areas of the house in ONLY ONE pavement. This requested exact insite measurements to be able to eliminate the well-known passage-thresholds, and a very good preparation so that the natural veining of the marble created a continuous perfect pattern.
