

Flamed Ataíja Blue in Costa Alentejana

Brejos de Azeitão, Setúbal, Portugal

A beach-house at the Alentejo Coast with pavements in **Ataíja Blue** in the flamed finishing.

Living-rooms, bathroom, bedrooms and circulation areas: everything paved in the Portuguese limestone Ataíja Blue in 90*60*2cm pieces and flamed finishing.

The grayish comfortable tonality of this material, combined with one of the most interesting finishing that one can give to natural stone, originated fabulous results, viewable to whomever takes a moment to appreciate the photographs...
