

Indian Green, Red Travertine and Black Slate

Lisbon, Portugal

Check-out the application of these materials in 2 bathrooms and one kitchen!

The choice is difficult: on one side we have the bathroom in **Indian Green** marble, with big cut-to-size pieces to the roof and a well-done illumination. On the other there is a bathroom in **Red Travertine**, with all the color of this material and the beauty of the chosen rectangular pieces.

In the kitchen, flooring, and countertops in **Black Slate** in its natural cleft and obligatorily rough but so welcoming finish...
