

1 Kitchen and 3 Bathroom = 4 Natural Stones

Estoril, Portugal

When entering the house becomes a real experience: here you will find 4 spaces that were covered with 4 different Natural Stones.

The **Absolute Black** granite in the kitchen (floor and countertop) in its polished finish, for a sober and modern atmosphere.

The **Yellow Travertine** (polished) and its warm tones coat the first bathroom, from head to toe, a dip in a warm and comfortable place.

The second bathroom has chosen to be more classic and refreshing with a dark gray tone: it is fully lined with our Portuguese **Ruivina** marble, also polished.

The ultimate bathing space is all mystery and class: the **Forest Green** marble on the floor, walls and suspended washbasin with our unique design.

A real treat!
