

White, Grey and Black for Bathrooms in Lapa

Lisbon, Portugal

This is an example of sober elegance: a bathroom in **Blue Valley** limestone covering the walls and floor, together with a top and washbasin with a ramped design.

The smaller bathroom is entirely tiled in polished **Bianco Carrara** marble with a washbasin in polished **Black TP** marble in the same design.

A highlight note for the excellent combination of marble and slatted wood applied to the cabinet doors.
