

3 Bathrooms, 3 Marbles

Estoril, Portugal

3 bathrooms with 3 purposes: the power of Natural Stone.

The guest bathroom is distinguished by the beauty of the polished **Emperador Dark** marble on the floor, half-height wall cladding and the Quadra design washbasin. It sits on a cream colored marble top, the **Crema Marfil**.

For the top and side of the children's bathroom, the luminosity of the **Ibiza White** marble in the polished finish was chosen.

As for the couple's bathroom, we opted for a bold material: **Antique Green** marble tile on the floor and Quadra washbasins on Ibiza White top.

The result is beautiful.
