

Bathroom in Crema Marfil and Walnut Travertine

Oeiras, Portugal

In this bathroom, two natural stones in shades of beige and brown were chosen, making the atmosphere welcoming: the floors and part of the wall coverings are in soothing polished **Crema Marfil** marble, in beige tones and the shower was highlighted with walls in **Walnut Travertine**, giving movement to space and at the same time a mineral side, recalling the bark of a tree.

The result is original, balanced and elegant.
