

Original Combination - Wonderful Outcome!

Lisbon, Portugal

The client made an unusual request: an "almost checkered" floor between **Black Marquina** and **Tropical Acquamarina** marbles. This floor follows the entire hall and hallway of the house. It takes us to a pristine white kitchen in **Thassos White**: flooring, cladding and countertops.

The Tropical Acquamarina marble, with a light background dotted with coral blues and greens, is once again in the bathroom: floor, top and shower tray.

The result of this house is light, feminine, very well achieved.
